

LANDSCAPE CONSTRUCTION

Imagine is defined as “to form a mental image or concept of”. There are a variety of ways to imagine or visualize changes in your landscape. Often, communicating the visual picture that a client has to the construction team can be difficult, which is why we use a variety of techniques to transform your imagery to a completed project.

We often will use a 3D imagery of a concept, digital sketches and sometimes the old-fashioned way of walking the property, talking it out and making it happen organically.

Visit our website to view more completed projects:

LANDSCAPE & GARDENING

One of the easiest and most rewarding things that you can do to ensure that your roses and planting beds are healthy and strong is to top-dress them with compost. Composting provides plant nutrients in a balanced and ready-to-use form and enriches the texture and structure of the soil. Compost is truly black gold for your roses!

Your gardening success depends on the health of your soil, and the health of your soil is directly related to whether or not you enrich it with compost. This rich, earthy substance is what remains after hundreds of different organisms including bacteria, fungi, worms and insects break down organic materials.

Compost is the result of the activity of a myriad of tiny organisms that need two main compounds for their life processes – carbon for energy as well as nitrogen for growth and reproduction. As the differing organisms go through the organic materials, the byproducts undergo progressive decomposition and eventually most of the digestible material is consumed and transformed, leaving behind a rich soil amendment. Compost is an outstanding and invaluable source of organic matter for the home gardener.

The benefits of a healthy garden will repay you many times over for the relatively small amount of work it takes to make your own compost. Garden soil that is regularly amended with compost will have improved soil texture and structure, increased water retention in sandy soils and loosened clay soils, control pH, feed helpful earthworms, control weeds, aerate the soil, retain moisture, provide healthier, more productive and more disease resistant plants, promote better drainage, provide soil nutrients, increase beneficial microorganism activity, provide mulch and recycle garden and kitchen waste. Can you ask for anything more?! Compost is indeed **black gold** for your garden.

Furthermore, compost will warm the soil in the spring, stimulating plants to grow sooner in the season, and cool the soil in the summer allowing plants to perform better in the summer heat. Also, if you keep your garden well composted you will not need to water and fertilize as often.

Contact your Account Manager or our office at 508-778-6466 if you would like more information.

Gardens in Osterville

HBRACC Career Day, 2017

ANNUAL NEWSLETTER 2017

We take pride in our work

Dear Friends,

As 2017 comes to a close, there is no better time to take the opportunity to say “Thank You” for another successful year. The growth we’ve experienced over the past 39 years is a reflection of clients like you who faithfully support our business.

Our goal has always been to build lasting relationships with our clients by providing quality craftsmanship and unparalleled customer service. We receive great satisfaction in knowing that we are your “go-to” company to take care of all your needs, including those beyond the construction and landscape industry. We will continue to strive for excellence and to build our company to be the most dependable, most versatile, and most competitive it can be.

Remember, we are always just a phone call away for your home repairs, landscaping, maintenance, security needs, and more. No job is too large or too small so please call us if we can help you in any way.

I am also available on my cell phone 508-776-0923 or email at ejjaxtimer@comcast.net directly.

With gratitude,

E.J. Jaxtimer

What’s New:

We are pleased to announce **Stephen Chafetz** has joined our project management team. Originally from Memphis Tennessee, Stephen received an undergraduate degree from University of Wisconsin – Madison and attended Law School at University of Tennessee.

Stephen started his career by founding a construction company in Memphis that built single family custom homes, condominiums and zero lot line developments, and commercial projects. He then moved to New England 17 years ago and has built homes throughout MA and RI with the last five years exclusively on Cape Cod.

Stephen’s experience in New England consists of commercial projects in Brookline, high rise penthouse condominiums in Charlestown and numerous oceanfront properties in both MA and RI.

Katie Flynn has also joined our company in the administrative department. Katie just graduated this past spring from Franklin Pierce University in Rindge, NH with a business major and a marketing minor. She is a true team leader and captained the Sandwich High School girls ice hockey team as well as the FPU Ravens women’s ice hockey team. When she’s not working or playing hockey, Katie is fishing with her dad on the Kelly-Kate or hunting. She is happy to be home on Cape Cod after living in New Hampshire for the last 4 years.

Contact us any time with questions or comments, We’d like to hear from you!

PROFILE:

Kristin Gayle

Kristin Gayle came to work for E.J. Jaxtimer Builder, Inc. just over one year ago. Originally from Sandwich, now living in Yarmouth, Kristin graduated with honors from Cape Cod Community College with an Associates Degree of Science - Concentration in Business Management and Marketing in 2010. She brings office management, marketing, and event planning skills with her from her prior marketing position at the Cape Cod & Islands Association of REALTORS®/CCIMLS and as office manager at Lighthouse Media Solutions.

Kristin coordinates all company events, marketing/advertising, PR and social media for the company. She also is the front receptionist and assists with the everyday responsibilities of running the building office. She is a great team player and we are happy to have her apart of our company.

“Everyone has made me feel right at home here and I love the family atmosphere. I always feel that my work is important and meaningful.”

- Kristin Gayle

We believe strongly in giving back to our community. E.J. and his wife, Terry, have been active participants across Cape Cod for decades, donating their time and money to a wide variety of philanthropic endeavors. This holiday season, we hope to encourage more people to give whatever they can to help people in need.

Giving is not just about making a donation, it's about making a difference.

We'd like to share some of the charities, foundations and programs we support all year long:

Seaside LeMans, Cape Cod Tech, Cape Abilities, Our Lady of Victory, Compassionate ALS, Light Keepers Society, Barnstable Little League, Cape Cod Times Needy Fund, Cape Cod Child Development, Barnstable Education Foundation, Barnstable Land Trust Supporter, Barnstable Police K-9 Foundation, Cape Sunshine, Housing Assistance Corporation (HAC), CCCC Educational Foundation, Centerville Historical Museum, COMM Firefighters Association, Inc., American Red Cross Hero's Breakfast, Cape Cod Horticulture Society, Curry College, D-Y Volleyball Booster Club, Flower of Angels, Habitat for Humanity, HopeHealth - McCarthy Care Center, HBRACC, Cape Cod Healthcare, MA Audubon Society, MSPCA - Centerville, NAACP Scholarship Fund, Pan Mass 2017 Challenge - The Jimmy Fund, Town of Barnstable Recreation Division, UMASS - Stockbridge School of Agriculture, Osterville Business & Professional Association, Sheriff's Annual Rib Roast, Jolly Jaunt Special Olympics Walk, University of Connecticut Foundation, Zion Union Heritage Museum, Daniel Hassett Memorial Foundation, The Genesis Foundation for Children

Team Cork Open Golf Tournament
Shepley Wood Products Annual Charity Golf Tournament
Osterville Village Library Golf Tournament
BBBS Annual Golf Fore Kids Tournament
HBRACC Charity Golf Tournament, Pella Windows Golf Tournament

A New Memorial Garden at McCarthy Care Center

More than 65 donors, volunteers, family members, and staff celebrated the dedication of the new memorial garden gracing the McCarthy Care Center in Sandwich.

Made possible by the generosity of E.J. Jaxtimer Builder, Inc. and the Jaxtimer Family, the new memorial garden winds around the back of the building creating a special and peaceful place for patients and their families. Each patient's room looks out to some portion of the garden. To honor the Jaxtimers, the garden is inscribed with a saying chosen by the family: Always remember the beauty of the garden, for there is peace.

In addition to thanking E.J. and Terry Jaxtimer, their sons, Jonathan, Jamie and Sam, and their staff, HopeHealth also recognized the following who helped to make the garden possible: Bob Bortolotti of Bortolotti Builders, Dan Helman of Cape Coastal Nursery, Sam Lorusso of Cape Cod Aggregates, Pat Gregory of Cape Resources, Lou McKnight of Drywall Masonry Supply, The Eastman Family, Robert Epstein, Chris Joyce of Joyce Landscaping, and the Town of Sandwich.

The Christmas Tree Project

~

We always look forward to the Holiday Season. This year E.J. Jaxtimer Builder, Inc. will be donating Christmas trees to employees and local charities.

If you know of a family who is in need of a Christmas tree this holiday season, please call our office to see if we can help.

OUR CUSTOMERS ARE THE REASON WE ARE HERE

Dear Friends,

This landscape season has been both mild and wild all rolled into one! All season we have experienced torrential downpours as well as extra moist and humid conditions, then switching back to dry, dry, dry conditions. This is how landscaping goes every year and, day to day, our crews have worked tirelessly to maintain your properties.

It is with great excitement that I rejoin the Jaxtimer Landscape Team. A group full of talented, dedicated individuals that all share an immense passion for the Green Industry; striving for the highest standards of quality and customer service.

Personally, I'd like to thank Rob Kennedy for his years of leadership and unwavering dedication to all of you. Having another opportunity to work with Rob and the dynamic team he built is very exciting to me.

Although this season is not quite done, I am already looking forward to the future.

Sincerely,

Angela Cenzalli, MCLP, CSP

Please feel free to contact me anytime at 508-776-5717 or angela@jaxtimer.com

IRRIGATION & LIGHTING

Adding landscape lighting to an existing landscape or as part of a new construction project brings together safety and convenience. Landscape lighting not only enhances your outdoor experience, it also offers security to your family and guests.

The technology continues to change including LED lights which offer more lighting options, bringing down the cost of fixtures, and now control both zoning and dimming that truly give the consumer limitless design possibilities.

Preset designs allow you to control which lights are on and when. Having an evening event at the pool? How about a little lighting around the fire pit or grill? This zoning now allows you to choose which lights are on and which lights are off, instead of them all being on, regardless of which part of the yard you are using. For example, Group 1 can be set to 100% illumination at 7 pm, and then automatically dim to 60% at 9 pm. Groups 2 and 3 can be set to their own percentages and adjusted throughout the night as lighting needs change for those areas.
