

Simply

THE BEST!

The BRICC Awards, presented every two years, recognize excellence in building, remodeling, design, landscaping, sales and marketing on Cape Cod. Featuring 20 categories, the awards celebrate everything from overall new construction and historic renovations to green energy design and outdoor living spaces. The program also honors individuals who are rising stars and outstanding project managers. Thank you for all of your outstanding submissions and congratulations to all of the winners!

"The Sea Goddess," by E.J. Jaxtimer Builder, Inc., won a Gold BRICC award for Excellence in Remodeling Historic Renovation or Restoration. Architectural Design by Patrick Ahearn Architect and interior design by Richard Fitzgerald Interiors. The attention to detail is the "wow factor" of this Osterville project. Much of the original millwork and fine woodwork was restored and completed with specialty finishes.
